

Possability

Gardening Activity

You will need

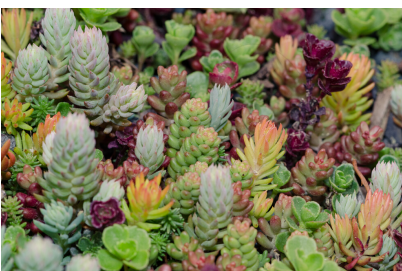

An empty pot, or an ice cream container or a plastic milk container cut in half.

Some potting mix or dirt from the garden

Garden gloves or something similar

Succulent clippings from the garden or any other plant that can be re-potted.

To decorate a pot with plants

Choose your pot and place it on a table at a comfortable height to work with.

With your garden gloves on or by using scoop, pour a layer of potting mix into the container.

Make a hole with your thumb or finger for the plant clipping to go into.

Take each clipping that you would like to put in the pot and press into each hole and cover with extra potting mix.

Water your newly planted plant with a little bit of water.

Place your potted plant in a well lit area.

Water every few days.

Enjoy watching your plants grow.
